HORECA4VET IS...

A European project that aims to develop a validation and certification model that will be the necessary material for the design of future courses and training programmes for 3 modules:

- Creating flavours and decorating dishes;
- Kitchen work management;
- Management in the HORECA industry.

I06. HORECA4VET FOR SUSTAINABLE DEVELOPMENT - SCIENTIFIC PUBLICATION

This **scientific publication** will serve as a presentation of the good practices developed by the partners in the framework of the HoReCa4VET project.

The main objective of this publication is to ensure the transfer of project results and good practices, identified during the project, to a wider audience.

The publication will serve both educational and promotional purposes. Thereby, it will include a comprehensive description of the experience gained during the implementation of HoReCa4VET, as well as the main outputs and results of the project.

It will highlight best practices in the HORECA industry; methods for attracting and engaging the target group in a progressive learning path to improve key skills and competences; the project results, and other practical information.

As a promotional tool, this intellectual output will consist of a book able to reach wider audiences in the participating countries of our project, as well as in other European countries.

TRANSNATIONAL MEETING IN ANTALYA

On **3-4 November 2022**, the **fourth face-to-face transnational meeting** took place at **Akdeniz University**, in **Antalya** (Turkey).

Principally, the meeting focused on both **validation and certification models** to be used in the HORECA sector. In addition, partners discussed the **arrangements for the Final Conference**, which will take place in Krakow (Poland) in the first half of 2023 (dates to be confirmed).

Furthermore, partners started to plan and determine the topics for **the scientific publications** that each partner should have ready before the end of the year, and which will be presented during the Final Conference.

At the end of the project meeting, HoReCa4VET partners also **visited the gastronomy department** of the Akdeniz University.

UPCOMING ACTIVITIES

The next steps to follow are:

- Continuing with the development of outputs 3, 4, 5 and 6, concerning the validation and certification models, the e-learning platform, as well as the scientific publications.
- Holding multiplier events in each partner organisation.
- Preparation of scientific publications.
- Organisation and celebration of the Final Conference of the HoReCa4VET project.
